Mission Statement

Developing, implementing, and supporting effective processes that advance collaborative, purposeful change for our students, our communities and ourselves.

We value:

- Providing responsive, reliable, customer-friendly service.
- Providing needed resources (institutional data and information, technology, external grant funding, project management) that support the College mission and strategic priorities for change.
- Supporting robust campus integration of planning, evaluation, and improvement at all levels.
- Practicing responsible and efficient use of resources.
- Promoting the use of responsive, articulate, innovative analysis tools and high integrity data resources.
- Encouraging innovative and enterprising efforts for introducing mission-oriented change.
- Promoting a culture of evidence-based continuous improvement.
- Building campus collaborations.
- Encouraging unit resiliency through effective evaluation and organizational learning.
- Participating in strategic professional development serving the unit's mission.
- Strengthening change management processes through persistent communication.
