

Table 1R2a-1: I.E. Report of Academic Program Assessment Activity (10-19-18)

Purpose of this table

The purpose of the table is to describe the College’s academic assessment activity as of fall 2018. It is also intended to assist schools complete their academic program responses to internal peer-review feedback from the Academic Standards subcommittee for Student Learning Assessment (SLA), which was completed May 15-16, 2018. Programs were scheduled to submit responses to SLA feedback by October 12, 2018. Campus Labs will roll over assessment plans in early January, which means that peer review comments and responses will not display in the new cycle of assessment planning. Programs should not wait past December to respond to peer-review feedback.

Academic Assessment Time Line for 2017-2018

January In-Service: Report student assessment data, develop data summaries, and review options for improvements

March 9, 2018: All assessment plan sections are completed, including display of data results/summary and Improvements.

March 23, 2018: Deans’ review of all assessment plans in their respective schools is completed.

May 15-16, 2018: SLA Peer-Reviews All Assessment Plans, except those programs undergoing program review.

Aug. 27-Oct 12, 2018: Program faculty review SLA Feedback, revise plans, and write responses to SLA.

*Programs undergoing program review in 2017-2018 were not required to update their assessment planning for the 2018 calendar year (typically done in January), so no responses to SLA 2018 feedback comments are required for these programs (see * in table). However, these programs should have data reports and responses to peer-review feedback for the 2017 calendar year.
