Concurrent Enrollment	1990's	Educational
-----------------------	--------	-------------

Nature of collaborative activities/efforts and outcomes

The purpose of concurrent/dual enrollment agreements with area high schools is to create a learning environment that establishes opportunities for the success and continued education of secondary students. Through these partnerships, eligible high school students may enroll in a variety of courses offered at their high school or at LCCC and receive credit at both secondary and post-secondary levels.

In 2015, LCCC received accreditation from the National Center for Concurrent Enrollment Partnerships (NACEP) for its concurrent enrollment program. This accreditation demonstrates the highest quality educational opportunities for students.

In addition in 2015/2016, LCCC Albany County Campus partnered with Laramie High School to begin offering college career and technical programs in the new high school. This provides an opportunity for high school students to complete their career pathway and college credit certificate in auto technology concurrently while completing their high school diploma.
