### UPHOLSTERED ARMLESS STACKING CHAIR

Manufacturer: KI

Model: PRYU

Fabric and Cushioned – Grade 3 on Seats and Back, Fabric: TBD

**No glides**

#### Overview:

Perry(r) stack chairs offer surprising comfort in a high-density stack chair. Designed by renowned sculptor, architect and designer Charles Perry, the stack chair offers an articulating back. The seat is suspended from the lower back, so the occupant's weight perfectly counterbalances the tilting pressure on the backrest. This Perry model is armless, cushioned and upholstered.

#### Specifications:

Plastic Chair Seats and Backrests:

Injection-molded polypropylene. Seat is one piece screwed to frame. Backrest has two sections which form a snap-fit and are then screwed together. Chair seats have two die-formed 7-gauge straps welded to side frames.

Chair Frame:

Armless version has 7/16" o.d. solid steel rod welded into a one-piece unit. Armchair version has 7/16" o.d. steel rod and 5/8" steel tubing welded into a one-piece unit. Seats have two die-formed 7-gauge straps welded to side frames. Bright duplex nickel chrome plated or painted finish.

Back Articulation:

Articulation is achieved with a single-piece frame which flexes as the back pivots around its upper and lower crossbars. The seat is hung from the lower back so that the user's weight perfectly counterbalances the tilting pressure of the upper back.

Polypropylene Arm:

Injection-molded polypropylene. Two-piece arm is joined by screws to encapsulate the frame. Arm is integral to frame.

Stacking Bumpers:

Integral parts of the frame, the bumpers are welded to the lower front frame radius. Two scuff protectors will be glued to the rear crossbrace of the chair to prevent scuffing of seat wires when chairs are stacked.

Bright Chrome Finish:

Surfaces are duplex nickel-chrome plated in a twenty-two step process.

#### Dimensions:

Overall: 19-1/2"W X 21-1/2"D X 32-1/2"H

Seat: 18-1/4"W X 17-1/2"D X 18"H

#### Warranty:

Warranted for ten years
