

LARAMIE COUNTY COMMUNITY COLLEGE

Wind Energy Technology Program

APPLICATION INSTRUCTIONS

Thank you for your interest in our Wind Energy Technology Program. Laramie County Community College maintains an open door admissions policy and provides programs beneficial to all students. College admission requirements are found in the college catalog. Acceptance to the Wind Energy Technology Program is competitive due to high demand for this education. The program will select 20 applicants and all selectees must have completed and met the acceptance criteria below.

Step 1

Apply for admission to LCCC by calling 307.778.1212. Come to the campus if you are local. If you are applying from another state or country please contact Bryan Boatright at 307.432.1606 or email at bboatrig@lccc.wy.edu

Step 2

Request all official transcripts from your high school and or college. Have your high school and/or college mail your certified transcripts to:

Laramie County Community College
Student records
1400 E. College Drive
Cheyenne, Wyoming 82007

Step 3

Complete an application for financial aid. Send an email to Bryan Boatright bboatrig@lccc.wy.edu to be considered for a scholarship.

Step 4

Verify math competency. You must take the placement exam (COMPASS) in the testing center (ARP building, room 169). Call 307.778.1105 for test times. you must place in MATH0930 or higher prior to applying to the LCCC Wind Energy Program. If you have equivalent college credits you must have a C or better.

Step 5

Complete a student housing application if you intend to live on campus.

Step 6

Complete the Wind Energy Application.

Step 7

Contact Academic Advising. Applicants will be contacted to schedule and advising session at a mutual convenient time after the application has been processed. Application will be processed as possible as quickly.

It is the student's responsibility to furnish all required paperwork and to see that her/his file is complete. Incomplete applications will be ineligible for consideration.

Wind Energy Technology Program Statement of Understanding

Wind Energy courses have a certain element of physical activities that are mandatory. These activities include climbing vertical and sloped surfaces, hanging in a full body harness, using mechanical advantage rope systems to pull loads, walking at heights and standing on hard surfaces for extended periods of time. Furthermore, wind energy technicians are expected to:

- ✓ Be able to work in and promote a safe environment
- ✓ Be able to climb 300 foot ladders and work at this elevation
- ✓ Be able to work in adverse weather conditions
- ✓ Be able to work in confined spaces
- ✓ Be able to follow exact instructions
- ✓ Be able to work under minimal supervision
- ✓ Be able to work with people in a team-oriented environment
- ✓ Be proficient with computers and standard software applications
- ✓ Be prepared to work with electrical hazards
- ✓ Be prepared for possible relocation and working in remote areas
- ✓ Be willing to work overtime and weekends and be on call 24/7 as assigned
- ✓ Have the ability to lift 50 pounds
- ✓ Have an aptitude for mechanical and electrical troubleshooting
- ✓ Have a high school diploma or equivalent

Be aware that when you seek employment, industry expectations are as follows:

- ✓ Be able to pass a drug test
- ✓ Be able to pass a background check
- ✓ Have a valid driver's license
- ✓ Have a clean driving record
- ✓ I understand that if I have been convicted of a felony,
it is my responsibility to research prospective employer's hiring policies.

By signing below and submitting this application, I hereby certify that I have read and understand the expectations of a wind energy technician and I have no conditions that preclude me from safely and effectively performing all the functions required of me as a wind energy student.
