

Veteran's Standards

Federal law and Department of Veterans Affairs regulations are specific and rigid regarding eligibility to receive veterans' education benefits. To be eligible, a veteran/dependent must be pursuing an "educational objective". An "educational objective" for community colleges is defined by VA regulations as one that leads to a standard college degree (Associate or Associate of Applied Science degree) or certificate. Students are not permitted to receive educational assistance from VA for "recreational" purposes.

In order to assure compliance with VA regulations, Laramie County Community College adheres to the following conditions for certifying eligibility for veterans' educational benefits:

- 1) Each veteran/dependent must be fully accepted for admission by the Admissions Office.
- 2) Each veteran/dependent must designate a program of study that will lead to an associate degree or certificate listed in the Laramie County Community College general catalog.
- 3) The VA Certifying Official will certify only those courses that are included in the student's program of study. Certification of elective courses will be limited to the number of electives permitted in the designated program. Electives, for VA purposes, may be satisfied by courses for which the student received prior college credit and credit for previous military or civilian training or experience.
Veterans/dependents should consult with their academic advisor before elective courses are selected. **VA will not pay for Developmental classes offered online.**
They must be taken in a classroom.
- 4) Once the veteran/dependent starts receiving benefits, satisfactory attendance, conduct, and progress, as set by the school, must be maintained. If the veteran/dependent does not meet the standards set by the school, the VA Certifying Official must notify VA. VA will stop benefits if the school reports unsatisfactory attendance, conduct or progress toward a degree.
- 5) If a veteran/dependent has attended college prior to enrollment at Laramie County Community College, official copies of all academic transcripts must be submitted to the Office of the Registrar and evaluated for prior credits. Veterans must also give a copy of their DD-214 to the LCCC Student Hub to receive the physical education credit, if required for their degree program. The veteran **cannot** take a P. E. class and receive VA benefits unless the veteran is seeking a degree in Physical Education.
- 6) A veteran/dependent who wishes to change their degree program must change it through their Self Service account in myLCCC.

- 7) VA will not pay for any repeat class if the veteran/dependent did not receive an earned "F" grade, or if the grade was not minimally satisfactory. Incomplete courses cannot be recertified unless the "I" has been changed to an "F".
- 8) VA will not pay for any class that is being taken as an audit. VA also will not pay for any continuing education class that does not count towards the veteran/dependent's declared degree program.
- 9) When considering a veteran/dependent student's status as full-time or part-time to determine housing benefits, the VA takes into account the length of the course.
Taking short courses (such as B Blocks) will impact the veteran/dependent's housing allowance. Veterans/dependents should see their advisor or the Student Hub if they need more information about how this may impact them.
- 10) Any time a veteran/dependent drops a course or withdraws from school, an overpayment may be declared back to the beginning of the semester unless mitigating circumstances are presented to the VA. Any veteran/dependent who feels he/she has mitigating circumstances should notify the VA Certifying Official at the time of the drop or withdrawal so that this information can be included in the Notice of Change sent to the VA.
- 11) For veterans using the Post 9/11 GI Bill, the VA will only pay the in-state tuition and fee amount. Questions about residency status should be directed to the Student Hub.

Any time a veteran/dependent has any questions about certifications they should contact the LCCC Student Hub.

If a veteran/dependent has questions regarding eligibility or the amount of VA educational benefits, or the status of benefit payments (particularly once enrollment has been certified) they can reach a counselor at the Veterans' Toll-Free number 1-888-442-4551.

I hereby certify that I have read and fully understand the above information and accept responsibility for fulfilling all requirements.
