

<b>Student Code of Conduct Policy</b>	Policy Number	3.14
	Effective Date	May 10, 2011

**1.0 POLICY & PURPOSE**

The Board of Trustees believes it is the responsibility of the College to provide an educational environment conducive to learning and exploration in which individuals and their property are protected from harm. The Board believes the College must set behavioral expectations of its students and that each student assumes an obligation as a responsible member of the educational community to demonstrate conduct compatible with an established, well-promulgated student code of conduct. The student code of conduct will be clearly displayed, easily accessible, and in a comprehensive student handbook.

The Board believes when an apparent violation of the student code of conduct is identified, the College will respond with an objective and fair process for the adjudication of such claims. This process shall ensure students’ rights and responsibilities are well documented, clearly stated, and widely available to those involved in the adjudication.
