

Naming of College Spaces Policy	Policy Number	5.5
	Effective Date	March 18, 2015

1.0 POLICY & PURPOSE

The Board of Trustees of Laramie County Community College (LCCC) recognizes the naming of Colleges spaces is a valuable method by which the institution can honor the substantial contributions of individuals or parties. These may be in recognition of significant contributions to the social, academic, scholarly, research, or student life of the College or in recognition of substantial charitable gifts to LCCC. The naming of College spaces is, and will always remain, a very special honor that must be offered only with the highest level of scrutiny to ensure LCCC does not dilute or lessen the level of recognition a naming tribute can bestow.

The Board expects that considerations for the naming of College spaces:

- A. Will be done with careful diligence to assess the contributions to the College rise to the level of significance worthy of a naming tribute;
- B. Will, to the fullest extent possible, be discussed and deliberated in a manner respectful of the individual or parties involved to protect against unnecessary stress, undesirable attention, or any other unintended negative impacts;
- C. Will be vetted fully with the LCCC Foundation if the naming is being considered based on financial contributions to support the College; and
- D. Will be approved by the Board of Trustees.

Therefore, the purpose of this policy is to direct the President to establish administrative procedures and guidelines for the process through which naming tributes of College spaces are advanced.
