Information Technology and Data Council Policy	Policy Number	8.2
	Effective Date	April 6, 2016

1.0 POLICY & PURPOSE

The Board of Trustees are committed to ensuring effective decision making in all realms of the institution, including integrated information technology and data governance. The Board is further vested in the active involvement of all internal college constituencies through an ongoing participative process of shared governance.

The purpose of this policy is to promote and maintain the College's integrated information technology and data governance infrastructure in a manner that leads to student success and efficient and effective operations in support of the College's mission. This policy aligns with the Board's commitment to sustaining a culture of continuous quality improvement of the College's programs, services, and processes.

The President shall be responsible for implementing procedures to ensure the systematic utilization of information technology and data resources, based on shared governance principles, including technology and data planning, project prioritization, and other administrative functions.
