CRITICAL INCIDENT REPORT

Directions: The Critical Incident Report form may be useful when a critical event (such as a patient safety issue) is observed. The purpose and design of the form is to limit reporting to the observed incident/behavior, without interpretation by the observer/evaluator, in order to record the entry without bias. Antecedents refer to events or environmental factors that preceded the behavior. Behaviors are to be described objectively. Consequences identify any determined ramifications imposed. It is the policy of the LCCC PTA program that any Critical Incident Report results in a call to the ACCE and/or PTA Program Director.
