

**Laramie County Community College**  
**Radiography Program**  
**Essay Questions 2025**

The following questions are to be completed by students desiring to apply for the LCCC Radiography Program's Fall 2025 start. This document is to allow students access to the questions prior to the application being published January 2nd. Questions will be submitted through Cognito as part of the completed application. Comment boxes on the electronic version are limited to 1000 characters.

- 1. Why do you want to pursue a career in radiography, and what personal or professional experiences have influenced your decision?**
  
- 2. Radiography requires attention to detail and excellent communication skills with both patients and healthcare professionals. Can you describe a time when you successfully managed a situation requiring these skills?**
  
- 3. How do you think radiographers contribute to the overall healthcare experience for patients? What qualities do you think are most important in providing patient-centered care?**
  
- 4. Healthcare professionals often face ethical dilemmas. Describe a scenario where you faced a difficult decision and explain how you handled it. How would you apply that experience to a situation in a radiography setting?**
  
- 5. Balancing the demands of a rigorous academic program with personal life can be challenging. How do you plan to manage your time and responsibilities to succeed in this program?**
